Reviews of  
Good Books  
Independently Published

## REVIEW SUBMISSION GUIDELINES

*Rev. April 2004*

*ForeWord* Magazine, a bi-monthly pre-pub review journal, publishes reviews of books including Spanish language / bilingual books, audiobooks, POD books, and e-books from independent publishers and university presses to coincide with their publication dates (publication dates are when books will be available to the public). Galleys should be submitted three-four months in advance of publication. Cover art should also be sent if available. Please be sure the publication date and subject categories are noted on the press release or fact sheet.

Audiobooks, POD books, and e-books should be sent as soon as they are available with a press release or fact sheet.

Submission information should include category, title, subtitle, author, publisher, number of illustrations, pages, prices, binding, number of cassettes, hours/minutes, ISBNs of formats, and pub dates. Press releases or fact sheets should summarize why the title is distinctive and different; include the publisher's name, address, phone, and fax. (e-books: send the Copyright page, Contents, Preface, and first few pages; please don't send the entire e-book.)

*ForeWord* receives more than twelve hundred galleys/books, audios, POD's, e-books every two months and can only select approximately ten percent for review. Of the titles reviewed 85-90% are nonfiction. Selection factors include current interest, editorial calendar, distinctiveness, preparation, and worthiness. Fiction and mystery represents 10-15%; consideration is given to well written books with interesting plots, settings, and characters. Other considerations for review include layout, audience, competition, and review space.

The readership of *ForeWord* magazine is comprised of 20,000 booksellers, librarians and other trade professionals who require a reliable source of reviews of independent and university presses.
